

# Product Manager to help shape the future of E-commerce

## Are you our new Product Manager?

WHITEAWAY GROUP

Are you driven by curiosity, collaboration, and a passion for turning complexity into clarity? We're looking for a Product Manager to join our dynamic product team and help build digital solutions that make a real impact - on our customers, on our business, and on your professional journey. As part of a mid-sized and fast-moving e-commerce company, you'll work at the intersection of technology, data, and customer experience. You'll bridge the gap between business needs and technical solutions, crafting strategy and direction in close collaboration with engineers, UX designers, analysts, and stakeholders across the company.

### What you'll be doing

- Define and drive product vision, strategy, and roadmaps within a key area of our digital platform
- Work closely with your cross-functional squad of engineers, designers, and data scientists to bring product ideas to life
- Evaluate market trends, user behavior, and business needs to uncover and prioritize new opportunities
- Collaborate with technical and non-technical stakeholders to ensure solutions are not just built - but built right
- Ensure product plans are followed through with strong execution, ownership, and ongoing communication

### What we're looking for

- Experience in product management or related roles, preferably in a tech-driven or e-commerce environment
- Experience with agile methodologies and Product Information Systems or Warehouse Management Systems is a plus, but not requirements
- A self-driven team player with a genuine interest in how complex systems work and how they can be improved
- Growth mindset, willingness to learn, and a structured approach to turning challenges into opportunities
- A relevant academic background in business, software engineering, or product development

### What you'll be part of

- A diverse and collaborative product team that thrives on shared success and continuous learning
- A broader tech department, including Advanced Analytics and UX/Design
- A company culture that values positivity, ambition, and enjoying the ride together

Whiteaway Group started with a simple idea, a commitment to our customers, and with a passion for digital innovation. Today, we're a successful retailer, selling and delivering household

appliances across Scandinavia. We like to think we have quite an amazing workplace, including:

- A dynamic and international environment with room for you to be you
- Lots of opportunities to develop professionally and to influence your own work life
- A flat, informal organisation with short decision-making processes
- Attractive settings for the job, to mention some: flexible work hours, the opportunity to have days working from home, health care, lunch scheme, Friday breakfast, gym, and great social events.

We're committed to creating an inclusive environment for all employees and welcome applicants from all backgrounds, beliefs, and identities.

**Process and how to apply**

We'll screen and interview on an ongoing basis – so please don't hesitate to apply.

Simply submit your CV/resume and answer three quick questions - no cover letter is necessary.
